

**This sheet has been created to inform potential users of TuffPlans® with information on the product, how to send files to us for processing and provide pricing.**

### What are Tuffplans?

Tuffplans are new and innovative plans for use on Building, Construction, Civil Engineering, and Infrastructure projects, in fact any type of project where plans need to be used in the weather on outside sites and last for the life of the project.

TuffPlans® are: **\*Waterproof \*Won't tear \*Resistant to most solvents \*Are colourfast \*UV Resistant \*Can be rolled & folded [unlike plain paper laminated plans] \*Can be written on \*Extremely durable \*Dimensionally Stable even when wet \*Remain true to scale**

We can take your PDF or AutoCAD files or hard copy and turn them into Tuffplans within 24 hours\*, in Colour or Black & White in all sizes up to A0.

We use a sophisticated 'state of the art' wide format digital printer to print on Tyvek® from DuPont, from the same family as the Tyvek® House Wrap products.

### Colour or Black & White?

AutoCAD and most other CAD software will output their PDF files in Colour however many users will print in B&W due to the cost, and with TuffPlans® Colour and Black & White are the same price!

There are many studies that show Colour plans on a project saves costs as fewer mistakes are made by Project Managers and workmen as they can clearly differentiate between materials, services and other detail.

### Scaling

We can accurately scale Tuffplans output to any size, up from A3 to A2, A1 and A0 or down from A0 to A1, A2 and A3.

### High Resolution Print

The printer we use provides high resolution output, colours are accurate RGB or CMYK, hatching and other fine detail created with the CAD software is reproduced accurately. Most plan printers cannot print the fine detail, grey scaling or hatching that we can with our equipment.

### How to send files for processing

It's easy to send us files for processing:

- Log into our website: [www.tuffplans.com](http://www.tuffplans.com)
- Click on the Files Upload button on the Home Page.
- Enter your details on the form that appears.
- Files up to 250Mb can be sent.
- It is important that you provide us with clear instructions so that we know exactly what you want us to do with your files.
- As soon as we receive your files we will begin processing and put on Courier Post that evening for delivery to you the next morning\*.
- You can choose whether you would like Tuffplans folded and placed in a Courier Satchel or rolled and placed in a Mailing Tube. *Shipping rates can be viewed on our web site.*
- If you want to send us hard copies of your plans for scanning and printing please email us and we will give you an address for you to Courier the plans.
- Our website is now smart phone and tablet friendly so you can send us PDF's directly from those devices.

### Quotation First?

If you would like a quotation before we print your job click on the 'Quotation First' button on the File Upload form.

1) Prices shown are per sheet. 2) GST to be added at time of Invoicing. 3) Courier & Delivery Charges are additional.  
 4) File Handling Fee of \$10.00 applies to all jobs. 5) Prices are for standard CAD output, pages with heavy colour may incur additional charges. 6) Pricing is based on electronic PDF files supplied, Scanning of hard copy plans will incur additional charges.

### Payment

New customers will need to pay by Credit Card or Bank Transfer for their first order after which a seven [7] day account may be established once an 'Account Detail' form has been completed.

Major companies can set-up a trading account once an 'Account Detail' form has been completed and an Order Number provided.

### Presentation

TuffPlans® can be packaged either folded to fit in an appropriate sized Courier Satchel or left flat and rolled and placed in a tube.

For plan sets of more than 15 sheets we suggest that the set be stapled together and bound with tape, this keeps the sheets in order and together. We place a cover sheet on the set, this sheet shows the Project Name and Address.

\*Charges for binding are shown on the website.

### Shipping

We use Courier Post for shipping orders, Courier Satchels provide an overnight delivery to most areas of New Zealand, RD delivery is two days, Rolled Plans in a tube is overnight delivery to North Island and two days to the South Island, add an extra day for RD.

\* Shipping charges are shown on our website.

### TuffPlans® are also available from these Builders Merchants
